

Webpage Planning

Colour Scheme: Grey and Blue with some Green

Font: Verdana

Texture: Flat, Paper-like, Material

Throughout the site, common design elements, specifically font, colour scheme, and texture will be used. The background of text boxes, the colour of the text, size of text, size of the headings, colour of the navigation bar, and the design of the textboxes will be similar throughout the site. This will ensure that different pages of the site appear to be cohesive and all belong under one site.
